Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), an image communication method comprising a transmission step of automatically transmitting a plurality of image files indicated in a transmission image designation file to an external device; a first list generation step wherein the image transmitting apparatus generates a list holding information indicative of the transmitted image files and information representing a transmission order of the image files transmitted in the transmission step, the list being named a file name different from that of the transmission image designation file and having a same format as that of the transmission image designation file, and an output step of outputting the transmitted image files and the transmission order to an output device on the basis of the information held in the list as claimed in claim 1. Similar features are claimed in claims 24 and 50. Therefore, claims 24 and 50 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
